

Your Christmas Crib model

- 1 Find two suitable plastic bottles - they don't have to be empty.
- 2 Adjust the template to fit your bottle. (see other sheet)
- 3 Cut the pieces from thin card and score along the lines shown in the diagram
- 4 Colour or paint the robes, faces, halos as you like.
- 5 Put on the robes, thread the arms round underneath (you can curl them a bit with the back of the scissors)
- 6 Make two inside out loops of sticky tape. first fix the face to the halo then fix them both to the neck of the bottle.
- 7 It is a bit fiddly, but you can give Joseph a headdress from a circle of fabric or tissue paper tied on with wool or thread.
- 8 I made a Baby Jesus from Blu Tack and used a tissue to swaddle Him. Add a little (sleeping) face.
- 9 I used a little box for His manger and cut up some paper strips for His bed.

Hope you all enjoy making your Christmas Crib!
